

#GS-07F-0095M Federal / GSA Contract for All Romtec Buildings and Structures

A "GSA Schedule" is a contract listing the prices the federal government has agreed to pay for a vendor's commercial products and services. It allows all U.S. Government agencies to purchase Romtec buildings, structures, options and accessories with the speed and convenience of GSA Advantage, the federal government's electronic ordering system. Competition for an individual order is reduced because the prices contained in a "schedule" are pre-determined at the time of contract award.

Included are all Romtec vault and plumbed restrooms, restroom/shower facilities, concession and multi-use buildings, pre-engineered utility buildings plus fixtures, hardware and accessories. For more information call or go online to www.romtec.com.

1. SIN #361-10A Pre-Engineered Buildings & Structures for Storage Solutions

Includes but not limited to: storage containers, warehousing structures, hazardous/chemical storage, energy/power shelters, communications shelters, garages, portable vehicle tents, car ports, aircraft hangars, maintenance shelters, vehicle inspection stations, equipment shelters, barns, sheds, freight/shipping containers, portable workshops and mobile containers. May be wood, fiberglass, steel, aluminum, metal, tension fabric or other membrane material, pre-cast concrete and includes accessories and options. Structures and buildings are suitable for support of emergency and disaster recovery efforts.

2. SIN #361-10H Pre-Engineered Buildings & Structures for Restroom, Shower Solutions

Includes but not limited to: portable or stationary restroom or restroom/shower buildings, restroom and shower trailers, restroom facilities such as porta-potties, portable toilets and handicap accessible, ADA compliant, restroom facilities, comfort stations, mobile laundry facilities, pre-cast concrete restrooms, and includes accessories and options. Buildings and structures are suitable for support of emergency and disaster recovery efforts.

3. SIN #361-32 Installation & Site-Preparation for Pre-Engineered Buildings & Structures

Applicable to installation and site preparation services ordered in conjunction with buildings and structures purchased under the supply schedule contract. Special ordering procedures apply to this SIN. Excludes A&E services.

4. SIN #361-30 Ancillary Services Relating to Pre-Engineered Buildings & Structures

Including services relating to and ordered in conjunction with products purchased under the supply schedule contract, such as, field assembly, training, consultation and design assistance. Excludes construction as defined by FAR 2.101; A&E services and services applicable to the Service Contract Act.

5. SIN #361-99A Introduction of New Services & Products related to Pre-Engineered Buildings & Structures

Services and products not identified by existing SIN categories; includes new technology, stand-alone professional services, such as consulting, design assistance, and technical review/advice; and stand-alone commercial services (such as repair and maintenance services) that are subject to Service Contract Act wage rates.

Romtec is pleased to provide complete "turnkey" supply and installation of any Romtec facility. Through the above listed GSA Schedule Contract and SIN numbers, any Federal customer can enjoy the professional supply, design and installation services of Romtec. Contact Romtec to discuss how we can provide and install your facility within budget and on time.
